

Juday Creek Golf Course App for League Scoring

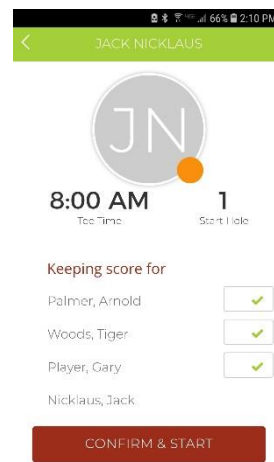

1 On the day of your league, Open the Juday Creek App. Tap the Green Bar that says Today's Tournaments. There may be multiple events and your league may not be the first in the list.

2 Tap the Box that has the name of your League.

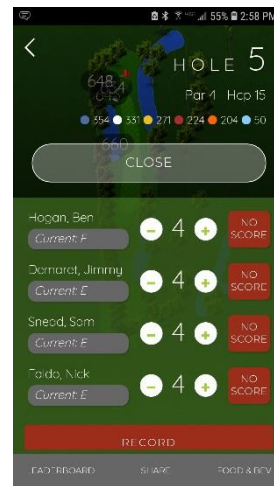

3 Select your name from the list.

3 You may choose to keep score for yourself or for your entire foursome. Keep the boxes checked for those who you want to keep score.

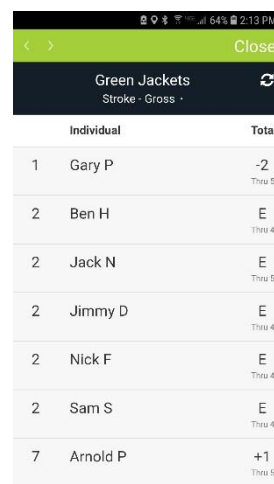

5 The starting hole will be the first thing to appear on the screen. You will see that it has GPS from your current location. When you are ready to input scores, tap the Record scores button.

6 You may use the +/- button to add or subtract stroke from Par for that hole. When you are finished, tap Record. This saves the scores. The screen will then automatically appear for the next hole.

7 After your 9-holes are complete and you have recorded the scores, you do not need to do anything else. If you need to go to a new round, simply tap the Red Start New Round button, see the Blue Circle at the top of the screen. Note the initials in the gray circles show the players scores for each hole in a column. Birdies are circled and Bogeys are squared.

8 There is a fun Leaderboard screen that you may use to see how the rest of the group is playing. See Blue Circle at the bottom of the screen in Step 7.
